K-12 Technology Skills Scope and Sequence
This graphic shows the foundational technology skills expected to meet the learning goals embedded in the ISTE Standards for Students.
Additionally, these skills can increase productivity and enhance basic technical competence.

This K-12 Technology Scope & Sequence was developed by the Educational Technology Faculty at Shorecrest Preparatory School. Shorecrest is a preschool through high school non-sectarian, co-ed independent school in St. Petersburg, Florida where empathy becomes action, inquiry sparks intellectual independence and students find their futures. Proven results since 1923.
